Adesewa: Hello. My name is Adesewa. I'm a postgraduate student in oncology, and I'm also a member of the board of directors.

Introduction Screen with the words 'Student Discussion Group'

Adesewa: So the student discussion groups was set up to improve the understanding and awareness of our services. So the students know where to find us when they need us.

This has been such a great opportunity for students to get involved, to share their views and opinions on current issues that may be affecting their experience in higher education.

And this has been really beneficial for us, because it means we get to understand the student perspective, not only on the concerns and issues raised, but also on how to address them. And this has helped us grow and develop future outreach strategies and also activities.
